"IT IS BORN IN US"

By GEORGE H. CAPPER

NDEED, folks, the love of finery is a very human quality -it is the heritage of the ages.

When first we gave consideration to the plan of producing clothes "finer than the finest," the question of finding a market concerned us not in the least.

Our job was to find a way to produce the clothes-we knew that; also, we knew it would be necessary to "shoot holes" through established manufacturing customs,

and that the Rut of Convention would have to be forsaken for the more modern Channels of Progress.

And so, our task began-and right happily it ended. We really did "find the way," and at the end of the journey we found our public ready and waiting to receive Capper & Capper Stratford Clothes, the finest of present-day manufacture.

Yes, folks, we all love the finer things of Life—it is born in us.

Feed Children After School

eminent dietitian writing on A child feeding heartily, recommends the plan of preparing a light lunch for children returning from their session at school. This expert points out the strenuous hours of study and the resultant exhaustion of energy, and advises a light lunch to renew the vigor before letting the children go out for their afternoon of play.

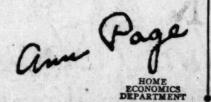

We know that children are active little bodies . . . running, jumping, and skipping hours at a time. Good wholesome food is needed to build strength into each muscle and bone.

Why not adopt the plan of preparing a light lunch for the children to eat at three-thirty in the afternoon. It can be quickly and simply prepared and consist of a few ready-to-serve foods. Peanut butter, apple butter, sandwich spreads and jam are excellent. Fresh fruits are welcome also-and of course a glass of milk is essential.

If you care to follow this plan but need suggestions, write to Ann Page.

Address all communications to Ann Page, Home Economics Department, the Great Atlantic & Pacific Tea Co., 447 W. Pershing Rd., Chicago.

Blue Ribbon Wednesday Why So Famous!

16 N. Michigan Randolph 7000

Wednesday, Sept. 29th

On Wednesday a short time ago an accurate count of the people coming into this store showed over 15,000. This is probably 5,000 to 7,000 more than an ordinary day.

Blue Ribbon Wednesday has become an institution with the food buyers of Chicago and the strange thing about it is, the

items that are sold in the greatest quantities are the ones that are advertised week after week.

There is nothing like Blue Ribbon Wednesday anywhere in the United States and for that matter nowhere in the world.

If the items that have made Blue Ribbon Day famous weren't all we say of them-how would it be possible to sell them for almost 300 consecutive Wednesdays and in much greater quantities each succeeding Wednesday?

The quantities of these items sold on Wednesday would hardly be believable-

Think of 4 to 5 tons of one kind of coffee -8,000 to 10,000 pounds, over one counter in one day! It must be good, and reasonable in price, too. Tons of candy-thousands of crates of fruit—hundreds of slabs of bacon-2,000 dozen doughnuts, etc.

What is your knowledge of this store? Do you know from your own experience whether it is useful to you or not? Try it today. Try it any day. If you like what you see, just remember that

sold in these 287 Wednesdays? And they are more popular now than when people first crowded into this store to get this marvelous value. There are whipped cream centers, covered with a most delicious and wholesome coating of finest chocolate, in a half dozen tempting fruit flavors. Also chocolate covered nougats and chocolate covered full cream caramels . . . which make this a most tempting package. Most certainly you never had better candy even when you paid 80c to \$1.00 a pound. 3 Lb. Box,

BLUE RIBBON BACON

Real Bacon lovers are the purchasers of this bacon week after week. It is prepared after an old Irish recipe and is different in taste and flavor from the ordinary bacon that you buy. He will have no subterranean obligations or affiliations, and the people of Illinois, we are confident, and without reservation.

The entrance of such a candidate upon the sorry colitical landscape of our beloved commonwealth is welcome. Whatever the outcome of the election, this independent campaign-backed as it is by citizens of highest private character and public spirit and led by a candidate of unquestionable meritfixes a rallying ground for thousands of conscien tious citizens who hold that the huge contributions of public utility magnates to Mr. Smith's fund raise the paramount issue of this election. At this writing Mr. Magill has not yet made a statement of his views and comment on the general situation is therefore postponed. In any case Mr. Magill's candidacy raises the campaign to a higher level.

Dandruff Soon Destroys the Hair

If you want plenty of thick, beau-tiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone and two or three more applications will completely dissolve and entirely destroy every single sign and

NEW BEAUTY

-but traditional Studebaker slamina

BEAUTY and refinement in the new Studebaker Custom cars has subtracted nothing from their efficiency nor added anything to their cost. For beneath the outward beauty of these custom creations, is the same traditional stamina which has enabled Studebaker to establish some of the

world's most notable records for endurance.

This speed and durability recently enabled a Studebaker Big Six to cut 16 hours and 25 minutes off the best previous transcontinental automobile record, under the most adverse weather conditions — made Studebaker the victor in the 1925 Russian endurance trials — broke the Trans-Australian record in 1924!

Australian record in 1914!

The brilliant performance of Studebaker cars is due to the quiet Studebaker L-head motors. Marked freedom from vibration comes through complete machining and dynamic balancing of the big Studebaker crankshaft. Long life and endurance come through costly alloy steels, better materials of every kind and the finest workmanship.

Cutting 30% to 50% from the Cost of Oil Heat

Railroad locomotives and steamships which burn oil instead of coal are equipped with boilers designed especially for oil-burning.

In the home, the Bryan Oil-Burning Boiler effects relatively the same efficiency and economy which make it profitable to burn oil on the railroads and at sea.

It cuts 30 to 50 percent from the cost of burning oil in an ordinary boiler designed for coal.

Its efficiency reduces the consumption of oil to the point where oil is as cheap as coal for home heating.

Such welcome results are possible with this new boiler because it conforms to the specialized requirements of oil-burning. It is built to utilize the intense heat and the gases as no coal-burning boiler can pos-

It produces steam or hot water in onefifth the time required in the older-fashioned

That is the secret of its economy. That is why it is being welcomed by those who want the comfort, the convenience, and the cleanliness of oil-burning but who feared the cost.

The modern home, as it is built today, provides for oil-burning-with the installation of the Bryan Oil-Burning Boiler - on the lowest-cost, highest-efficiency basis.

Without this boiler, the home which heats with oil is denying itself all the advantages which all good oil burners are designed to yield.

The Bryan Oil-Burning Boiler, with its remarkable efficiency, costs no more than the ordinary coal boiler. It actually pays for itself in fuel saved. It operates efficiently and economically with any good oil burner, in steam, hot water, vapor, or vacuum heating systems. See it in operation at the address given below.

Hot water for household use costs 50 per cent less with the Bryan Oil-Burning Boiler. A special hot water coil does away with the costly separate water heater and provides abundant hot water all the year round.

The Bryan Oil-Burning Boiler may be purchased out of income-25% down.

) il-Burning Boiler

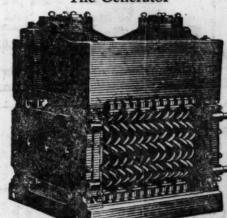

Oil Burner Manufacturers who have not already done so, are invited to test their oil burners with the Bryan Oil-Burning Boiler at the Bryan Steam Corporation plants at Peru, Indiana. Such tests will give them accurate data on the savings effected with their particular burners.

The Bryan Oil-Burning Boiler

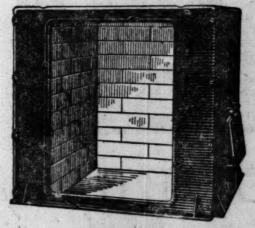

Specially designed and built for the special requirements of Oil and Gas Burners. For Steam, Hot Water, Vapor, and Vacuum Heating Systems. Attractive moss green finish, with nick-eled pure copper corner strips.

The Generator

The Generator of the Bryan Oil-Burning Boiler is a nest of durable copper tubes ingeniously arranged in the direct path of natural heat travel-on the principle of the familiar hot water heater, By using copper tubes, closely intertwined, instead of heavy cast iron walls as in the ordinary coal boiler, the effective heating surface is greatly enlarged, the circulation of water is tremendously accelerated and the water is heated or converted into steam in one-fifth the time required in an ordinary boiler.

The Combustion Chamber

The Combustion Chamber provides the cientifically ideal boiler conditions for the correlated and efficient operation of an oil burner.

Growth!

Dictates this endorsement of Companion advertising by America's most successful merchants

ing American merchants—men who are nationally famous retailers.

These unqualified endorsements of the local value of Companion advertising are of compelling significance to every manufacturer and retail merchant in America—together with the basic facts and figures which back them up.

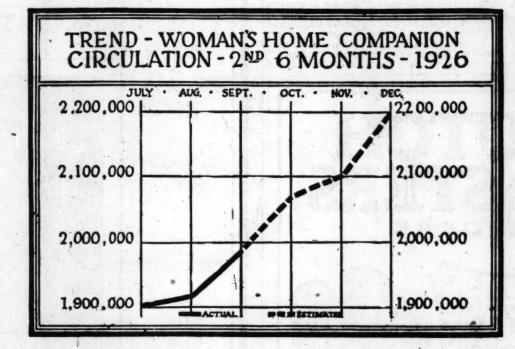

OTE below the comments of outstand-

12 years' progress

For example—the consistent increase in Woman's Home Companion circulation—from less than 900,000 in 1915 to over 1,900,000 in 1926. A gain of more than one million copies in 12 years—at the average rate of nearly 100,000 copies per year.

And again the progress of the Companion right now—a more impressive growth than any preceding one in its history—and which establishes the magazine today at the highest and best point in its career.

In July the Companion carried the announcement of its editorial program for the next 12 months—and

With a past record of consistent circulation growth averaging nearly 100,000 copies a year, the Woman's Home Companion is today gaining new readers at a faster rate than ever before in its history. Never have the facts of Woman's Home Companion growth been so impressive

its new price of ten cents. What happened? July showed a circulation increase of 81,000 over June.

And 6 months'!

But that's only part of the story—for September shows a further gain of 85,000 copies over July—with estimates for December indicating a net paid circulation in excess of 2,105,000 copies!

And as every merchant knows, this striking growth has been largely registered during the so-called "dull season" in magazine selling.

Thus with the Companion at the very height of its recognition as the most important and distinguished publication in its field—and an editorial program the most brilliant in its history—the shrewder merchants are planning now to take fullest advantage of the tremendous local selling force it puts back of their own merchandising operations.

For they know that now more than ever it will pay merchants everywhere to feature and tie to Companion-advertised products.

"We have always been partial to nationally advertised merchandise.

"We find in every department that the nationally advertised lines are invariably the best sellers and give us the quickest turnover. The nationally advertised goods we sell have two endorsements—our own and that of the manufacturer. They are therefore more readily acceptable to the customer, easier to sell.

"So many of our best customers (we find upon investigation) are subscribers to the Woman's Home Companion, that we are convinced that this excellent medium has brought splendid results in retail sales in the Glass Block Store."

"I cannot stress too strongly how much of our success we owe to well-known, consistently dependable nationally advertised products.

"In the history of our business we have changed from line after line of unadvertised products to nationally advertised merchandise.
"I should estimate that the average turnover of nationally advertised hardware is at least

five times that of unadvertised brands.

"By handling and featuring nationally advertised products we have been able to secure twice the average jewelry store turnover, as given by the Harvard Business Studies.

"We have found that, by concentrating on a few good nationally advertised lines, we can decrease our investment and do as much or more business with half the selling effort.

"We know that manufacturers' advertising in the Woman's Home Companion, for instance, reaches thousands of the best families in New Orleans.

HAVE you tried writing Screenlines? Folks everywhere are trying it. It's easy to do-lots of fun. A new scene from a popular motion picture appears every day in The Daily Tribune. \$100.00 in Cash Prizes is paid every day for the five best Screenlines for each picture. No waiting for weeks to find out who has won. Winners of today's Screenlines are announced one week from today! You have a chance to win a cash prize EVERY DAY! Start with picture No. 3 printed above. Just write a Screenline in 10 words or less. Note these samples: "Receiving a Kick From the Five-Foot Line," "A Surprise Play." Now try YOUR hand at writing one!

Follow These Simple Rules:

- 1. Each day excepting Sundays, until further notice, The Chicago Tribune will print a scene from some well-known motion picture. The public is invited to submit Screenlines—Titles—for these pictures.

 Each day The Chicago Tribune will accept and publish the 5 best Screenlines submitted. For these winning suggestions The Chicago Tribune will pay \$100.00 in cash as follows: 1st Prize, \$50.00; 2nd Prize, \$25.00; 3rd and 4th Prizes, \$10.00 Each; 5th Prize, \$5.00; a total of \$100.00 each day. total of \$100.00 each day.
- 2. This offer is open to every man, woman, boy and girl excepting employes of The Chicago Tribune and their families. It costs nothing. It does not matter where
- 3. You may submit as many Screenlines for each picture as you wish. You may use the form printed in The Chicago Tribune each day or a separate sheet of paper. If separate sheet of paper is used be sure to mark the number of the picture on entry.
- 4. It is not necessary to have seen the motion picture to write a Screenline. Clues will be published under each picture printed in The Chicago Tribune. These clues will tell you the name of the picture, the principal characteristic and the action. acters and the action, Consequently, you may Screenline without actually having seen the motion picture.
- 5. Screenlines must be 10 words or less. Try to make suggestions clever. There are no restrictions as to kind of Screenline. Study carefully the picture published each day in The Chicago Tribune. Then write your Screenline along the following lines: following lines:

 1. Try to tell the meaning of the picture.
 2. Try to tell what you think the principal characters
- are saying.

 3. Try to think of a general descriptive Screenline such as you would like to see in the movies.
- 6. Screenlines must be in the Office of The Chicago Tribune within 4 days after the picture is published. For example, answers to today's Ricture No. 3 published above that be in the Office of The Chicago Tribune not later than next Sunday.

- Suggestions should be mailed to "Screenlines," The Chicago Tribune, Post Office Box 1539, Chicago, Ill. Neatness will count.
- 8. You need not buy The Tribune to compete. It may be examined at Public Libraries or at The Tribune Offices free of charge.
- 9. The winning Screenlines will be announced in The Chicago Daily Tribune exactly one week from the day the picture is published. Winning Screenlines for today's picture will be announced in next Wednesday's Tribune. 10. In selecting winners The Chicago Tribune will be the sole judge and its decision will be final. In the event of ties duplicate prizes will be paid.

Cash Prizes Every Day!

Note that 5 Cash Prizes are awarded Every Day! You don't have to hold the pictures till the end of the contest and wait months to find out who won. You can start with Picture No. 3 shown above. Simply suggest a Screenline in 10 words or less and send it in! That's all! The clues given beneath the picture will help you. It's easy. Anyone can do it!

Send In Your Screenlines At Once!

"Cuts washday work in two," say the women who use Chipso

HIPPING and melting of hard cake soap-hard rubbing - every-week boiling,-all these are banished on washday by soaking in Chipso's quick suds.

No wonder women everywhere say that Chipso does half their washday work for them!

Chipso is the amazing new household soap - made by Procter & Gamble-

-white, of course

-thinly flaked so that it gives rich, foaming suds at the touch of hot water-in tub or washing machine

-cleansing-it soaks even the greasy dirt out of your

clothes so that it can be easily rinsed away

-safe - it cannot harm fabrics or colors

-economical-it does your washing actually for less cost than old-fashioned cake soaps. The big Chipso box holds enough soap for 6 large washings.

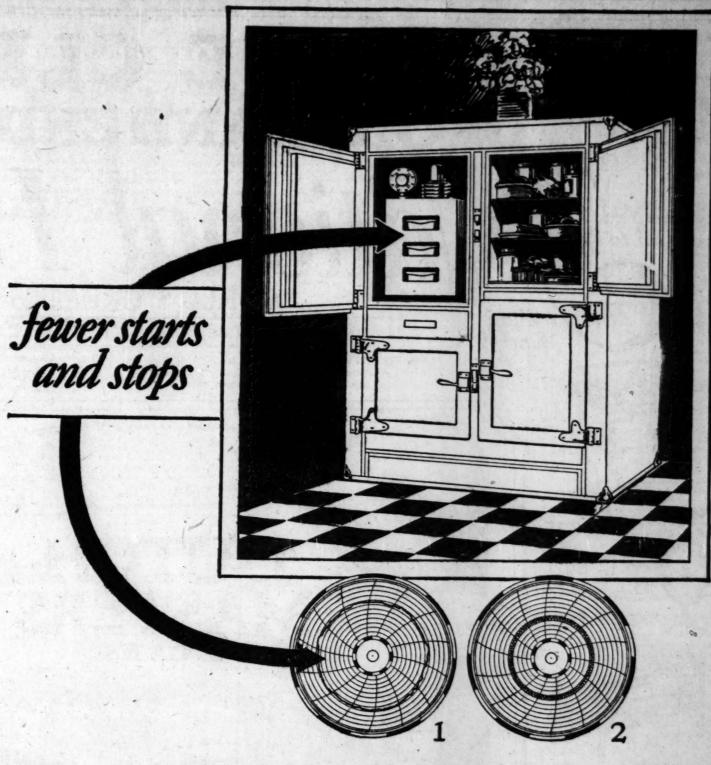

Chipso is the perfect household soap-you will be amazed to find how quick and easy it makes dishwashing and all your household cleaning. To try it, buy the 10¢ size, Then regularly buy the big size.

One of the reasons for Kelvinator's

In practical service there's less wear on a Kelvinator in a day than there is on other systems in four days. Naturally Kelvinator lasts much longer.

Wear can be determined pretty accurately by the frequency of starts and stops. Kelvinator has reduced these to a minimum by using a "storage tank": -a reservoir of cold that chills the refrigerator for several hours after each period of motor operation.

These charts are the results of tests run by the associated Edison Companies, the engineering body of the National Electric Light Association,

in their 1925 report. They tell the story. Number 1 shows the action of Kelvinator; number 2 that of another system not using the storage tank. Each "saw tooth" in chart No. 2 means a start and stop. More than four times as many are shown as on the Kelvinator chart. This may seem technical, but it means the years of satisfaction you regard as vital.

Kelvinator has other equally important features of superiority that we urge you to investigate before buying any electric refrigeration. We invite you to call and learn about them.

I WAS already a veteran pipe-smoker when I ran across Prince Albert. It happened one day in the smoking-car. I reached for my tobacco and found I was "out." A good samaritan sitting across the aisle held out a friendly looking red tin.

I accepted the offer. That was a great moment in my life, as it turned out. Why, that very first taste won me. It was cool, like a breeze through an open window. It was sweet as a ripe peach. It was fragrant, even in that smoke-filled car. I was having the time of my life.

pealed to me too. Yet there was plenty of body to it. I knew I was smoking. And I knew I was enjoying it more than any other tobacco I had ever tried. That settled me. I bought some P. A. when the train pulled in.

That was several years ago. I've been a P. A. regular ever since. Maybe you need a similar experience to put you next to the grandest tobacco that ever lined a pipe-bowl. My suggestion is: don't wait! Get yourself a tidy red tin of Prince Albert today!

DRY GOODS MARKET.

NEW YORK, Sept. 28.—(P)—Cotton goods sold in small lots for prompt shipment in the finished goods division today. The demand was broad. Gray cloths were quiet, with a softening tendency noted on some print cloth constructions. Demand for fine overcoatings and fine cloakings for immediate use exceeded supply, the prolonged strike in Passaic having slowed up the outcoating for including the constructions. The gramment is total 75,900, Monday's actual suptotal 75,900, Monday's actual 85,900, Monday's actual 85 DRY GOODS MARKET.

leased yesterday west along Monroe to State street, which would mean the wrecking of the former De Jonghe building and the Mentor. Stop Work and Talk.

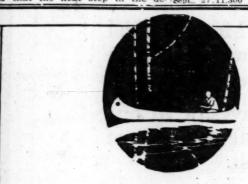

Work started on the Wabash-Monroe WABASH CORNER building some months ago by the Wabash-Monroe Building corporation of which Ernest A. Jackson is president, and the F. W. Woolworth company leased several floors. Then work stopped when it became a possibility that Carson, Pirie, Scott & Co., would lease it, and negotiations started.

Now, D. H. Burnham & Co. are revis ing plans for higher ceilings throughout the building and completion is set for next May. The Woolworth company assigned its lease to Carson Pirie. The sub-basement, however, will be used by the Commonwealth Edison company.

An interesting angle to the deal is the fact that the Mandel interests, store rivals of Carson Pirie, owe the land. This is the site of the old Windsor-Clifton hotel which was wrecked when work first started on the Wabash-Monroe The only broker in the transaction was the Farnham-Kuhn company. Attor-

Arkansaw Water Company

First Mortgage 5% Gold Bonds, Series A

Dated October 1, 1926

Interest payable semi-annually, April 1 and October 1, at the office or agency of the Company in New York. Principal and interest are payable without deduction for any normal Federal income tax not exceeding 2% per annum which the Company or the Trustee may be required or permitted to pay thereon or to deduct or retain therefrom.

The Company agrees to refund, upon proper application within 60 days after payment, the Pennsylvania and Connecticut Personal Property Taxes, not exceeding 4 mills per annum, the Maryland Security Tax, not exceeding 4½ mills per annum, and the Massachusetts Income Tax, not exceeding 6% per annum on income derived from the Bonds.

Trustee: Guaranty Trust Company of New York Issuance authorized by the Arkansas Railroad Commission

From the letter of Mr. E. W. Clark, President of the Company, we summarize as follows: Business:

Arkansaw Water Company, incorporated under the laws of the State of Arkansas, December 1, 1880, supplies water for domestic, municipal and commercial purposes in Little Rock and North Little Rock, Arkansas. These communities are located in the approximate geographical center of the State. Little Rock and North Little Rock, which have a combined population estimated at 117,000, are situated on opposite sides of the Arkansas River. Little Rock is the capital as well as the largest city and the business and financial center of the State. Numerous manufacturing activities are maintained within the city and on the outskirts are extensive railroad repair shops. South and west are the great oil, natural gas and coal fields of Arkansas and at Bauxite, about twenty miles to the southwest, is produced the basic ore from which a large proportion of the country's aluminum is made; north there is one of the largest remaining stands of hardwood lumber in the country; and in the Arkansas Valley are great fields of cotton and rice.

Purpose of lesue : The proceeds from the sale of these Bonds will be used to retire certain indebtedness of the Company, including all bonds now outstanding, and partially to reimburse the Company for expenditures for extensions, improvements and additions.

Security:

The First Mortgage Gold Bonds will be secured, in the opinion of counsel, by a first mortgage on all the physical property now owned by the Company and will be secured by a direct mortgage on such property hereafter acquired. Twelve months ended June 30, 1926:

Earnings:

Net income before interest and Federal taxes......\$325,579,39 Annual interest charges on \$2,750,000 First Mortgage 5% Gold Bonds, Series A (this issue)

Net income, as shown above, for the twelve months ended June 30, 1926, is over 2.3 times the annual interest charges on this issue of Bonds.

Arkansaw Water Company is controlled through stock ownership by American Water Works and Electric Company, Incorporated. American Water Works and Electric Company, Incorporated, controls through stock ownership thirty-one water companies constituting the largest group of privately owned water works plants in the United States. Most of these water companies have been under the same control and management for from twenty to forty years, during which time they have shown consistent earnings and growth. These Companies serve over 125 communities in fifteen states. American Water Works and Electric Company, Incorporated, also controls electric power and light and transportation properties serving over 800 communities in the great industrial area in western Pennsylvania adjacent to Pittsburgh, in northern West Virginia, northern Virginia, central and western Maryland, and eastern Ohio.

Legal matters in connection with the issuance of these Bonds will be passed upon by Messrs. Seibert & Riggs, of New York, and for the Company by Messrs. Sullivan & Cromwell, of New York. These Bonds are offered when, as and if issued and received by us and subject to the approval of proceedings by counsel. This offering is confined to dealers duly registered under the laws of this State.

The Fox and the Mask

A Fox had by some means got into the store-room of a theatre. Suddenly he observed a face glaring down on him, and began to be very frightened; but looking more closely he found it was only a Mask, such as actors use to put over their faces. "Ah," said the Fox, "You look very fine; but there is nothing behind you."

Outside show is a poor substitute for inner worth.

It pays to look closely

A safe investment has something behind it and is the sure road to independence. For over forty years The Harris Organization has specialized in the sale of safe bonds.

"Real Collection Service!"

That's how the Pennsylvania Piston Ring Co., Cleveland, O., feel about their policy of

American Credit Insurance

Of course, they carry this policy primarily as protection against bad debt losses. But they also profit by the service we render in preventing such losses. They write us:

"We have come in contact with many collection agencies during the past eight years, but it is only since our connection with you that we have come to realize what a real collection service can do."

CHICAGO STOCK TRANSACTIONS

Tuesday, Sept. 28, 1926. Chicago stocks were moderately active yesterday, but prices displayed considerable irregularity. Illinois Brick was in strong demand and advanced to 55%, a new high record since the shares were split up, but slid off

to 54½ at the close, making a net gain of a point. The buying was accompanied by reports of improved earnings and the likelihood of extra dividends. In the motor group, Borg & Beck reacted a point on profit taking and Bendix declined fractionally, but Stewart-Warner rallied 1½ and Vesta Battery gained a point. Evans was up a point, Yates-American was about steady, and Middle West Utilities and Ollomatic declined fractionally. On small sales, Thompson, United Biscuit, and Brach advanced a point each, but Union Carbide lost a point.

DIVIDENDS DECLARED

Where do You stand financially?

MOST men go along with an approximate and often an erroneous idea of their net worth. And they have no definite plan for building a sufficient surplus eventually to provide an adequate income independent of their personal earning power.

If a few minutes spent in filling out a prepared form would give you a statement of your personal financial standing-wouldn't you think it worth the time? And if the working out of this statement showed you just how much you need to invest in bonds each year, at various rates of interest, to accumulate a desired surplus at a certain time of life, wouldn't that be worth knowing?

The blank form, chart and tables for defining your present financial situation and your required financial objective is contained in a folder with full instructions, which we would like to send you, without obligation. Write for folder CT-9A

This Bank has loaned Millions of Dollars on Character and Income

THE MORRIS PLAN was designed that the honorable American citizen of moderate means who does what he says he will do, can pledge his character as security for money borrowed for constructive purposes. The Morris Plan borrower gives to his bank a note signed by himself and two of his friends - it is a deposit of honor - a pledge of faith.

That is what we mean when we say that this bank has loaned millions of dollars on character.

And The Morris Plan borrower promises to pay, and he can and does pay, because the repayment plan of The Morris Plan is geared down to meet his earning ability. Instead of a big payment at any one time, weekly, semi-monthly or monthly installments are made out of income.

That is, what we mean when we say that this bank has loaned millions of dollars on income.

Thus character and income, like stocks, bonds and mortgages, are security for loans on The Morris Plan, and they are the best collateral on earth.

There is no mystery about loaning money on such an intangible quality-something that you cannot touch, weigh, or measure by the yard, for The Morris Plan Banks have already loaned over \$500,000,000 to 2,500,000 American citizens in every walk of life, for every reason under the sun-for the advancement and happiness of as many American homes.

This bank has a capital of \$1,000,000.00. We will loan a part of it to you on your character and income.

Figures on Original Bond Financing in St. Louis

Prepared in 1926 by Alden H. Little, as Chairman Mississippi
Valley Group, Investment Bankers' Association of America, to

In addition to this bond financing. St. Louis houses originated \$46,639,087 worth of Industrial and Public Utility Stocks in 1925, as against \$11,212,250 in 1924... These figures give an index to the total original financing in St. Louis.

TALK to anyone who has traveled lately through the Southwest. Or investigate for yourself.

Here in this section is some of the most conspicuous development in the nation today.

New industries. Extensive highway development. Drainage projects which are bringing into being vast new areas of productivity.

Municipal expansion, with new streets and sewers and waterworks. Schools and churches. And development and enlargement of public utilities.

Altogether as interesting a picture of prosperity as you have ever seen. . . . Right here in the states which lie to the west and south of the great St. Louis gateway.

What wonder that the St. Louis financial market is so active! Here is vast development based on capital financing originating in St. Louis.

St. Louis investment bankers are making possible the great volume of this interesting program in the Southwest.

Second Largest Bond Market in the Middle West

This capital city of the Eighth Federal Reserve District is establishing more firmly than ever its rank as one of the great municipal bond As a general market for bonds, the St. Konts district is the second largest in the Middle West

The Best Help in Covering This Market

And St. Louis has a newspaper famous throughout this market for its financial and business news. Think of a newspaper which reaches the executives in 80.1% of the banks in the 49th State, and in 68.4% of the banks throughout the Eighth Federal Reserve District. The St. Louis Globe-Democrat actually does that.

The position of the Globe-Democrat unique. It is the only morning paper in St. Louis. No other paper within 150 miles even attempts to compete with the Globe-Democrat in financial and market news service. By general consent, this is the accepted medium for such news. . . The function of financial monitor to the district rests exclusively with this one newspaper.

Financial advertisers find in the Globe Democrat the ideal combination of efficiency and economy in addressing their messages to the people they really want to reach—the buying power who depend upon this newspaper for financial and market news.

"Let's keep on thinking," she begged, "and see if we can't find a way." but she spoke without hope, and the bang of the big front door as Dorinda nded the steps had the eloquence of an eternal farewell.

Dorinda walked home slowly through the falling snow. Already the reets and roofs and trees were mantle wrapped and the aspect of the old lown's best residence suburb was that of a master etching, but she saw none beauty. A black depression enveloped her. When she reached her house

Well, let them continue to do so. She was in no mood to see any one. She walked on aimlessly, sternly looking herself in the face. "Keep on thinking," Norma had advised, and Dorinda was obeying the injunction. But she obeyed without volition. A force stronger than her will and the cast is peopled with bright shaped and directed her mental processes; with surprising clearness she saw hereself as she seemed to others. She had just about done for Dorinda Maxwell, with that wretched party last night. She realized its effect on Orson Hatch, and could forecast the action he would take. She must anticipate that action if she could. But how? The talk of getting out, of giving up her inheritance, of living like a sparrow, as her newly chosen companions lived, was all non-sense, of course, and Mr. Hatch when he thought it over was clever enough to loved her home and was proud of it. She must think . . . find some plan. She tramped on, head down, hands deep in the side pockets of her fur coat, sicking the snow before her like a child. Vaguely at first, and then more clearly, a plan took shape in her mind.

You will find "The Belle of Broadway" quite a charming little program of the kind of a finish most of us cry on the kind of a finish most of us cry of the kind of a finish most of us cry on the kind of a finish most of us cry of the kind discontinuous contents and discontinuous contents and discontinuous c clearly, a plan took shape in her mind.

There's a party on the phone, Mr. Goddard," it remotely informed him. 'An' I called and called you from the foot of the stairs, but you wouldn't hear. The party says it's urgent.'

Goddard apologized and volplaned to the lower hall. He was already annoyed by the "party," whoever it proved to be. It might be as hard to get back to work after the interruption as it had been to get down to it at the start. Moreover, a journey up and down two long flights of stairs was hard on Maggie, who, he lightly estimated, had already made it several hundred times that day. He seized the dangling mouthpiece and barked into it. Goddard speaking.'

He frowned. The staccato voice was Dorinda Maxwell's, and the sound of it laid no balm on his troubled spirit. "I hope I'm not disturbing you, but I want to consult you about something very important. Could you come over to my house now? It's entirely a personal matter," she hurriedly went on, as Goddard grinned into the dimness of the hall. She was making it clear

that there were no guests to be taken home this time. Nevertheless he hesitated, telling himself that he was fed up with the girl and her affairs. "Please come," she added—"it's really urgent."

The pre-nuptial parties began last when the Browns' city residence party given by Mrs. Stanley K. Peirce Jacobs and Mrs. Charles A. Kerr Jr gave a luncheon yesterday at Mrs. Jacobs' residence in Winnetka, and Miss Alice and Miss Mary Jane Jud son are to give a bridge party tomor row evening. Miss Neola Northam is to give a luncheon and bridge party will hold the products that will keep in storage and feed them to the market as there is demand. Tomatoes, green beans, and similar crops that soon perish cannot be held. Ripe tomatoes have to be picked, but the green ones can be left on the vines. Pull the vines and hang them by the roots in a cool place and the tomatoes will ripen.

Frost probably has not seriously hurt the root crops. White potatoes, particularly and the products of the bridal dinner on Friday evening.

She's the Sort of Girl Whose Middle Name Is-"Boss"

BY DORIS BLAKE. "I am 19, five feet seven, healthy and considered good looking," writes C. V. T. "I never had a toothache and not once in my life did I use to bacco. The only fault with me is I

don't smoke. About six months ago I met a lovely girl but she does not consider me a man because I don't smoke. What do you think of that? Every time I meet her and every time I have a date with her she completely spoils the evening by bringing this subject up for discussion. In all my life I never did touch a cigarette to my lips and I know that to start this I'd have to pass through

"I love this girl because she is beautiful, charming and her personality is pleasing. She agrees with me on everything except the smoking habit. So I decided to abide by your decision whether to begin it or not, even at the cost of friendship with her " If you abide by my decision, C. V.

T., the girl is not going to have any further opportunity to nag you. Any young woman with so little regard for the personal rights and liberties of others is, in my opinion, unable ever to make a man happy. With this type of person, if it weren't the cigarette question, it would be another. If you had a passion for blue suits, she'd urge you to dress in gray. If your were parted in the center she'd want you to shift the part to the side It's a queer world of women, C. V. T., from this tower of observation. One of them writes complaining bitterly about a husband who insists upon moking in the living room when there is a perfectly good barn in the rear of the house he may go to, and your friend urges you to adopt the habit in order to appear more manly, when a lot of men are abandoning the habit because it has grown too feminine s one for them.

Leaving out the argument of wheth-

er you should or should not smoke, it is not the girl's business to dictate to you. If you've survived nineteen years without a toothache or cigarette in your mouth, why should a girl's none too commendable whim influence you now? And speaking of manliness, isn't it more manly to stand up for your rights?

naturally beautiful complexion will come as your reward By NORMA TALMADGE

This is the simple rule beauty experts urge

CAINING a clear and charming complexion today no longer involves long and costly beauty treatments. Modern skin care strives for natural loveliness, effected in a natural and simple way—a way any woman can follow without expense or bother.

The simple rule below has brought the reward of a naturally clear skin to more women than any other method known.

Try it, if only for one week. Note the improvement that comes. The world's accepted beauty method to-day is simply the balmy olive and palm lather of Palmolive Soap used in this way:

THE RULE - MAKE IT YOURS STARTING TODAY Wash your face gently with Palmolive Soap, massaging it softly into the skin. Rinse thoroughly, first with warm water, then with cold. If your skin is inclined to be dry, apply a touch of good cold cream.

Do this regularly, and particularly in the evening. Use powder and rouge if you wish. But never leave them on over night. They clog the pores, often enlarge them. Blackheads and disfigurements often follow. They must be washed away. Follow these rules day in and day out. Your skin will be soft and lovely maturally colorful and clear.

Do not use ordinary soaps in the It costs but 10c the cake!—so little that millions let it do for their bodies what it does for their faces. Obtain Palmolive today. Note what one week of its use brings you. The Palmolive Company (Del Corp.), Chicago, Illinois. (Adventument) 1228

Remember that before Palmolive came, women were told, "use no soap on your faces." Soaps then were judged too harsh. Palmolive is a beauty soap made for one purpose only: to safeguard your complexion. 60 years of soap study stand behind it. Millions of pretty skins prove its effectiveness beyond doubt. BE SURE YOU GET THE REAL PALMOLIVE

THE AQUITANIA

Unfurnished Apts. ON THE LAKE SHORE At 5000 North.

The beautiful, fifteen story Aquitania, standing majestically on the shore of Lake Michigan, has been planned and designed for people who desire a city apartment home of luxury, comfort, and distinctive individuality.

While the Aquitania contains apartments of from three to six rooms, there are only a limited number of four room suites available for immediate and October 1st possession.

These delightful four room apartments are unusually spacious. They comprise a living room, dining room, bedroom, kitchen, butler's pantry, gallery hall, bath and from two to four closets of exceptionally large dimensions.

For those requiring only four rooms and who are accustomed to the finer things of life these richly finished and finely appointed apartments will contribute largely towards their physical comfort and mental contentment.

Electric light, gas, and electrical remental contentment.

Electric light, gas, and electrical refrigeration are included in the rentals,
which range from \$175 to \$200 per
menth
